

ASHFAK KP

FULL STACK DEVELOPER

Calicut, Kerala — ashfakp323@gmail.com — +91 8893390415 — Portfolio — LinkedIn — GitHub

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with hands-on experience building full-stack web applications from concept to deployment. Proven ability to deliver responsive, user-friendly interfaces alongside robust backend systems that scale. Comfortable working in team environments and contributing across the entire development lifecycle. Passionate about writing clean, maintainable code that solves real business problems.

AREA OF EXPERTISE

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Redux/Zustand
Backend & DB: Node.js, Express.js, MongoDB, REST APIs
Tools & Libs: Socket.IO, Postman, Cloudinary, AWS S3, WebRTC, JWT Authentication

WORK EXPERIENCE

Full Stack Developer — Kodlar Innovations May 2026 – Present

- Collaborated within a cross-functional group to architect and deploy production-ready web features.
- Participated in regular sprint planning, code reviews, and system design discussions to build scalable tools.

MERN Stack Intern — Bridgeon Aug 2025 – Present

- Developed and enhanced responsive user interfaces using React.js, JavaScript, and Redux.
- Collaborated with cross-functional teams to build reusable UI components and integrate RESTful APIs.
- Improved application performance and optimized rendering for better user experience.
- Expanded into full-stack development using Node.js, Express.js, and MongoDB.

PROJECTS

LMS Platform — Kodlar Innovations — (Live project)

- Developed a feature-based modular architecture utilizing Domain-Driven Design principles.
- Refined the Attendance Module to support session-centric grouping and Soft Skill Attendance logic.
- Implemented RBAC through a dedicated permission system and integrated Google APIs for scheduling.
- Engineered dynamic UIs with Atomic MUI components and React Query for efficient data fetching.
- Leveraged AWS S3 for file handling and Agenda Scheduler for automated background workflows.

FreeCone — SaaS Freelance Marketplace Platform

- Implemented role-based authentication (Freelancer, Client, Admin) using JWT.
- Built real-time chat and notifications using Socket.IO and WebRTC video calling.
- Designed an escrow-based payment workflow and admin analytics dashboard.

Hotwheels E-commerce Platform

- Developed a full-stack application using MongoDB, Express.js, React.js, and Node.js.
- Designed RESTful APIs for product management, cart operations, and order processing.

EDUCATION

Bachelor of Arts in English
